To Whom It May Concern,

My name is Aaron Berg and I am the team lead for the front end developers at Zija International. I've worked with Sam the past year and can attest he'd be a great fit on any team. Since day one Sam has been very eager to learn anything and everything when it comes to being a great developer. As his first development job he is always taking notes and jumps on any task given to him no matter how big or small. Of everyone I've ever managed, Sam has been the most accepting of coaching and welcomes any helpful information the senior developers can pass on.

Sam's attitude day in and day out is always great and I feel confident that he will be able to take his experience and provide a great value to your team.

Sincerely,

Aaron Berg
